REPORT OF THE SCHOOL BOARD,

For the Year ending February 15, 1910.

To the District and Town of Chesterfield:

All of our schools have been unusually successful for the past year. The scholars at the east part of the town should consider themselves especially fortunate in having such teachers as we have been able to provide for them.

The deplorable condition still continues on the part of the parents. They seemingly do not take the interest they should in visiting the schools. We think it a duty they owe to the children to go to the school and know how they are progressing. It has a tendency to stimulate and encourage both teachers and pupils.

The consolidating of districts in our country towns has always been a hard problem to solve to make every one equally satisfied. However, since the schoolhouse at the west part of the town has been repaired we have had three graded schools, and by so doing we can procure better teachers and do better work all along the lines. Agreeably to a vote of the district, we borrowed on the 13th day of July, 1909, \$1,500.00 of the Ashuelot bank of Keene and sent the same day the amount to F. M. Davis, chairman of repairing committee on schoolhouse at West Chesterfield.
